Necklace, Earrings and Ring with Turmalines - Hans Przyrembel.

The former Bauhaus pupil Hans Przyrembel already had his own shop and work shop in Leipzig, when he created this necklace, with ear clips and ring to match. For many years, the collier was in possession of his widow, who left us the original to enable a reproduction. The use of form and material corresponds in every detail with the experience and theories of the Bauhaus time of Przyrembel.

Ring	Earrings	Necklace
