Bulgy Vase, 1950's

We found and bought the model of this vase in a furniture shop in northern Italy, where it had been since the 1950s, without being sold. Neither any stamps on the vase, nor any information from the owner of the shop, give any indication as to the designer or former producer of the vase. As it is a beautiful, distinct form from the early 1950s, we find it worth while to produce the vase, probably for the first time in a series.
